Completion Status Report

- The Government must be able to monitor the cost, schedule and labor utilization of each Cost-Reimbursement Completion Task Order against its baseline plan and schedule of deliverables.

- Figure C.8.1-1 identifies each required element and the format in which they are to be presented in the Completion TO Status Report.

Term Status Report

- The Government must be able to monitor the hours and cost during a Cost-Reimbursement term task in order to identify potential cost and hour overruns/underruns, their magnitude and when they will occur. Each period of performance, i.e., base yr, opt yr 1, opt yr 2 etc shall be treated separately.

- Figure C.8.2-1 depicts the format of a Term TO Status Report with Cost Charts.

Fixed Price Status Report

- The Government must be able to monitor deliverable progress and interim deliverables against its baseline plan and schedule of deliverables.

- Figure C.8.3-1 identifies each required element and the format in which they are to be presented in the Fixed-Price TO Status Report.
